

Upcoming HR Seminar, 2018

Theme: Emotional Intelligence for Professional Excellence'

Date: 22nd September, 2018

A strong and credible human resource department is a sign of corporate confidence and strength. The era of liberalization and deregulation since 1970s had witnessed several mergers and acquisitions. Particularly in India the reform and liberalization policies initiated in early 1990s encouraged the shift to human resource development in a competitive environment.

Without strong and effective relationships in business, today's fast-paced, team-based and global work environments can't function with peak efficiency. Emotional Intelligence (EI) competencies are at the heart of effective workplace relationships and productivity.

Against this backdrop, SASMIRA's Institute of Management Studies & Research is organizing **HR Seminar, 2018** on '**Emotional Intelligence for Professional Excellence'** on 22nd September, 2018 in the Institute campus.

The main objective of the Seminar is to provide a forum for in-depth discussions on Emotional Intelligence. In this powerful one-day seminar, you'll learn why emotional intelligence is far more than just a handy set of "people skills," and why many executives feel it's the one skill you must have to be successful in today's workplace!

The seminar emphasizes the practical application of Emotional Intelligence concepts rather than just focusing on theory. Through your active participation, you will learn and practice the Emotional Intelligence skills that are the core of achieving personal awareness, connecting with others, managing stress, engaging healthy conflict and collaboration, and exhibiting resilience and optimism.
